

WHO'S YOUR BEST FRIEND?

Barley Bones Craft Doggie Treats are made from spent malted barley, a by-product of the beer brewing process, in combination with organic oat and rye flours. Spent malted barley contains a high protein content, a high content of digestible fiber and a significantly low fat content, making it an excellent foundation for dog treats and foods.

Barley Bones takes pride in the product we create, the ingredients we choose, and the processes we utilize. We strive to set a standard for how we treat our customers, employees, and products, and we hope it shows.

**Take Barley Bones Craft Doggie Treats
to your four-legged best friend today!**
